

AForce THE PERFORMANCE OPERATING
SYSTEM

**Performance
is non-
negotiable.**

Pause. Hydrate. Lock in. Perform.

This is beyond a hydration brand. This is a performance standard.

PATENT PENDING

U.S. Provisional Patent Application No. **64/057,695**

Filed May 5, 2026 · "Closed-Loop Real-Time Physiological Performance Operating System and Methods of Use"

Inventors: B. Burrell, J. Burrell · Docket AFG-101-US-P

— ORIGIN · BUILT FROM REALITY

Built where performance **is required.**

Performance expected. Pressure constant. **Failure has consequences.**

What defines them is not perfection.
It is consistency.

THE NBA

There are no off nights.

Every possession matters. Every minute is recorded. Performance is the only currency that travels.

WALL STREET

There are no missed moments.

6 AM or 10 PM — the market doesn't wait. Capital decisions under pressure. You show up sharp, or you pay for it.

ENTREPRENEURSHIP

There are no second chances.

Building from zero. High-pressure execution. Every decision is yours. No safety net. No off days.

Sports discipline. Repetition. Consistency under pressure — **translated into modern professional performance.**

MISSION

Performance is **non-negotiable.**

For professionals who **do not get to be off.**

*"The energy category is **loud by design.**
AForce removes noise. It removes friction.
It creates the focus for performance."*

BRANDON & JULIUS BURRELL

THREE BELIEFS

THE BRAND TRUTH

Performance is non-negotiable.

Not your best ever. Not your best in perfect conditions.
Your best, reliably, consistently, every single day. The one
standard this category has not yet defined.

THE HUMAN INSIGHT

There is a kind of person who does not get to be off.

The gap between what they're capable of and what they
deliver is not talent or ambition. It is consistency under
pressure.

THE CATEGORY CLAIM

Where others capture moments, AForce sets the baseline.

Not a hydration brand. Not a sports drink. A daily
performance system built on hydration intelligence — and a
performance discipline.

THE DAILY RITUAL

Morning. Set your level. ▪ **Midday.** Maintain your edge. ▪ **Pre-performance.** Lock in. ▪ **Recovery.** Reset.

Not used occasionally. Built into the day so you're never off.

THE DISRUPTION

Every other brand shows up **after** performance breaks down.

The category captures peaks. Stimulation, hype, recovery after the fact. Nothing operates **before** the moment that decides everything.

THE LOUD CATEGORY

Stimulation. Hype. Speed.

External energy

Spike & crash

Built for moments

Red Bull is the clearest example — the category is loud by design. It captures attention with intensity, then leaves the body to absorb the fall.

ON THE SHELF

Red Bull · Monster · Celsius · Prime

THE EMPTY DEFAULT

Water alone. No system.

No measurement

No feedback

No compounding

Plain water helps but never closes the loop. Nothing measures the body, nothing adjusts, nothing repeats. Performance is left to chance.

ON THE SHELF

Every gym fountain in America

A FORCE DOES SOMETHING FUNDAMENTALLY DIFFERENT

It removes noise. It removes friction. It creates clarity. It prepares you for performance.

— LAUNCH CATALYST

We launch **under pressure**, not in theory.

TWO FOUNDERS. **REAL PRESSURE**. NATIONAL STAGE.

" **We didn't start with a product. We started with a problem we lived under pressure.**

— TIMELINE · 2026

— THE CATCH

Demand is created publicly. Captured immediately.

THE LINEUP

One **system.** Delivered through **product.**

Three signature flavors. Two formats. One performance loop.

“ **AForce is the system we built to *stay sharp* when performance wasn't optional.** ”

THE INTELLIGENCE LAYER

No wearable required. Starts simple. Gets smarter over time.

The intelligence layer.

01 SCORE

Reads your state in real time.

Hydration. Activity. Environment.

02 COMMAND

Tells you exactly what to do.

Drink. How much. When.

03 IMPROVE

Learns your behavior. Gets smarter every day.

Every cycle sharpens the next recommendation.

BUILT TODAY VS. ROADMAP

Not a vision. A system already running.

———— BOTTOMS-UP SIZING · SOURCE-CITED

A real market, sized honestly.

Methodology: we size each market independently, not additively. Phase 1 TAM = US functional bev only. Future phases unlock team SaaS and enterprise — shown separately, not summed.

AForce captures Phase 1 now. Each phase unlocks new revenue — not a hockey stick from day one.

TWO INDUSTRIES. ONE INTERSECTION.

AForce is a category of one.

Hydration brands sell fuel and read nothing. Wearables read the body and sell no fuel. AForce is the only system that does both.

THE INTERSECTION

AForce

Performance OS

Drink · Sense · Coach · Compound

The category has drinks. AForce has a loop.

What we don't pretend is a moat: the can, the flavor, the price point. Those get copied. The system does not.

STRUCTURAL ADVANTAGE

System is the moat.

CPG is copied. Systems compound. Five reinforcing moats no competitor has assembled — fused into one operating system.
