

AForce THE PERFORMANCE OPERATING
SYSTEM

**You don't
break
under
pressure.**

Check. Act. Perform.

Built for people who operate when others don't — a system for staying sharp, steady, and in control.

MISSION

Performance is not a goal. **It's a standard.**

*"Built by founders who learned the hard way:
when you're **off**, you feel it immediately.
And in high-stakes environments, you don't
get a **second chance**."*

THREE BELIEFS

BUILT FOR PRESSURE

**Most products give you a lift.
Then they let you fall.**

AForce is built for the moments that decide everything —
when others fade, you stay sharp.

WHAT WE BELIEVE

**Performance comes from
control, not intensity.**

Control your body → you control your output. Control your
output → you control the outcome.

WHO THIS IS FOR

**People who expect more
from themselves — every
day.**

People who don't guess. People who don't drift. People
judged by what they deliver, not what they say.

THE LOOP

Control your body. Control your output. Control the **outcome.**

Built by founders who had to perform before the product ever existed.

THE REALITY

**Most people don't lose
from lack of effort. They
lose from inconsistency.**

You don't break all at once. You fade. Focus slips.
Energy drops. Decisions get worse — and
performance follows.

OPTION 1 — SHORT-TERM BOOST

**Energy spikes. Hard
crashes.**

Energy spikes

Hard crashes

No control

Sugar-loaded boosters create quick hits with no system underneath. The lift comes — and then the fall.

ON THE SHELF

Gatorade · Powerade · Prime

OPTION 2 — NO SYSTEM

**Water alone. No
structure.**

Water alone

No structure

No feedback

Plain water helps but never closes the loop. No measurement, no feedback, no command — and nothing compounds.

ON THE SHELF

Every gym fountain in America

THE GAP

The market fuels effort. It does not sustain performance.

— INSIGHT · THE LEAK

Performance doesn't collapse. **It leaks.**

You don't feel it immediately. You feel it later.
Slower reactions. Lower clarity. Worse decisions.

We didn't learn this in theory. We learned it under pressure.

— THE CATEGORY SHIFT

Performance is not effort. It is **management.**

THE OLD MODEL

React. Push. Hope.

- × Push harder
- × Drink when needed
- × Hope it holds

THE NEW MODEL

Measure. Adjust. Hold.

- Measure
- Adjust
- Stay in control

— LAUNCH CATALYST

We launch **under pressure**, not in theory.

TWO FOUNDERS. **REAL PRESSURE**. NATIONAL STAGE.

" We didn't start with a product. We started with a problem we lived **under pressure**.

— TIMELINE · 2026

— THE CATCH

Demand is created publicly. Captured immediately.

THE LINEUP

One **system.** Delivered through **product.**

Three signature flavors. Two formats. One performance loop.

“ **AForce is the system we built to *stay sharp* when performance wasn't optional.** ”

THE OTHER HALF OF AForce

The intelligence layer.

The product fuels the body. AForce OS reads the state and tells the user what to do next.

SCORE**Reads your state in real time.**

Hydration, energy, environment, and behavior become one score.

COACH**Tells you what to do next.**

One command at a time. No guessing. No friction in the moment.

NETWORK**Learns and improves over time.**

Every cycle strengthens the system. Every can sold sharpens the next.

THE OS LOOP

Product fuels the body. **OS controls performance.**

HARDWARE × SOFTWARE

Performance loop.

Product plus software creates a closed loop that improves with every cycle. The longer a customer is in the loop, the harder it is to leave.

01 — DRINK

A can or stick fuels the body.

pH 8.8 hydration enters the body. The first signal goes out.

04 — DECIDE

The user acts. The loop repeats.

Reorder is one tap. The next cycle starts smarter than the last.

02 — SCORE

The system reads the body.

Intake, sweat, weather, and recovery update the performance state.

03 — COACH

AI delivers the next command.

Mode-aware voice. One-tap action. The right product, in the right moment.

THE COMPOUNDING MOAT

This is not a product cycle. It is a performance system.

AForce OS · IN YOUR POCKET

One system. Multiple states.

AForce OS adapts to the user's state and turns behavior into performance. Drink → Score → Coach → Decide.

01 · SCORE

Real-time performance awareness.

One number. Updated every minute from temp, sweat, heart-rate, and intake.

02 · SOCIAL

Control while drinking.

Live BAC estimate. Hydration prompts. Recovery window — pre-staged before you need it.

03 · RECOVERY

Wakes you up better.

A timed plan that turns last night into a clean morning. Premium tier.

THE BILLION-DOLLAR OS

Building the performance layer.

Each phase expands control, increases retention, and opens new revenue channels. Consumer commands → team performance → enterprise risk monitoring.

PHASE 1 · CONSUMER LIVE 2026

AI Coach

Consumer performance commands and hydration intelligence. One command at a time.

- **Real-time scoring.** Hydration, energy, recovery — measured.
- **Adaptive protocols.** Rewrites your day from live biometrics.

— MARKET

The performance economy.

Functional beverages, sports drinks, and hydration mixes are converging into one demand: sustained performance.

FUNCTIONAL BEVERAGES

\$200B+

FASTEST GROWING

Consumers want cleaner functional fuel. Premium hydration leads it — clean labels, function over flavor.

AForce captures

Clean-label, mineral-dense formulation

SPORTS DRINKS

\$30B+

WIDE OPEN AT THE TOP

Athletes and high-output users want performance without the crash. The clean, alkaline end is wide open.

EXPLODING CATEGORY

Convenience is rising, but intelligence is missing. No alkaline, sea-functional player operates here at scale.

AForce captures

Stick-mix convenience + functional formula

— THE INTERSECTION

AForce sits at the intersection of product, behavior, and data. Functional formula · sports use case · stick convenience — \$235B+ at the intersection.

STRUCTURAL ADVANTAGE

System is the moat.

CPG is copied. Systems compound. Four reinforcing moats no competitor has assembled — fused into one operating system.

PRODUCT MOAT

01

Premium Formulation

Premium formulation with alkaline minerals and sea-derived functionals for performance, recovery, and longevity.

WHY IT CAN'T BE COPIED

Years of formulation IP. Not a SKU swap.

DISTRIBUTION MOAT

02

Multi-Format Ecosystem

Multi-format ecosystem across cans, sticks, subscriptions, and retail — every occasion, one brand.

WHY IT CAN'T BE COPIED

Compounds usage occasions and basket size.

DATA MOAT

03

Closed-Loop Data

Closed-loop behavior and performance data. Every signal sharpens the next recommendation — the model gets smarter every day.

WHY IT CAN'T BE COPIED

First-mover compounding. Not catchable by SKUs.

SOFTWARE MOAT

04

AForce OS

AForce OS turns product usage into daily performance intelligence — tracking, learning, and optimizing behavior across the system.

WHY IT CAN'T BE COPIED

No CPG brand has built this. No SaaS brand has the can.

ASYMMETRIC TO THE FIELD

Others sell products. AForce builds performance infrastructure.

NO COMPETITOR OPERATES A SYSTEM.

AForce vs. competitors.

AForce combines clean ingredients, functional performance, AI hydration coaching, behavioral data, and wearable-ready integration — a combination no competitor offers.
