PREFERENCES

< Notifications

Decide exactly which alerts AForce sends. Voice, push, and in-app badges all honor these toggles together.

🕒

Recheck Reminders

Risk-timer pings as your hydration window closes.

📶

Score Decay Alerts

Voice + push when you cross PEAK / STABLE / RISK bands.

📅

Morning Kickoff

Daily 06:30 summary of the prior day + today's plan.

👥

Circle Activity

Pings when friends in your circle log a peak streak.

📅

Challenge Deadlines

Reminders before an open circle challenge expires.

📦

Low Inventory Alerts

Restock prompts when sticks/RTD/canister inventory hits zero.

Score-band and risk-timer voice also respect the AForce Command Voice Engine scope/intensity in Profile > Voice.

LEGAL

< Terms of Service

Updated May 2026

The short version: AForce OS is a wellness and performance tool. Use it as one signal among many — never as a substitute for professional advice.

Acceptance

By creating an account or using AForce OS, you agree to these Terms. If you do not agree, please do not use the app.

What AForce OS is

AForce OS is a performance, recovery, and hydration intelligence app for adults. It surfaces estimates, signals, and coaching prompts derived from the information you choose to share with us. It is a wellness tool — not a medical device, diagnostic, or treatment service.

Your account

You are responsible for the accuracy of the information you enter and for keeping your login credentials secure. You must be at least 16 years old to use AForce OS.

Subscriptions and purchases

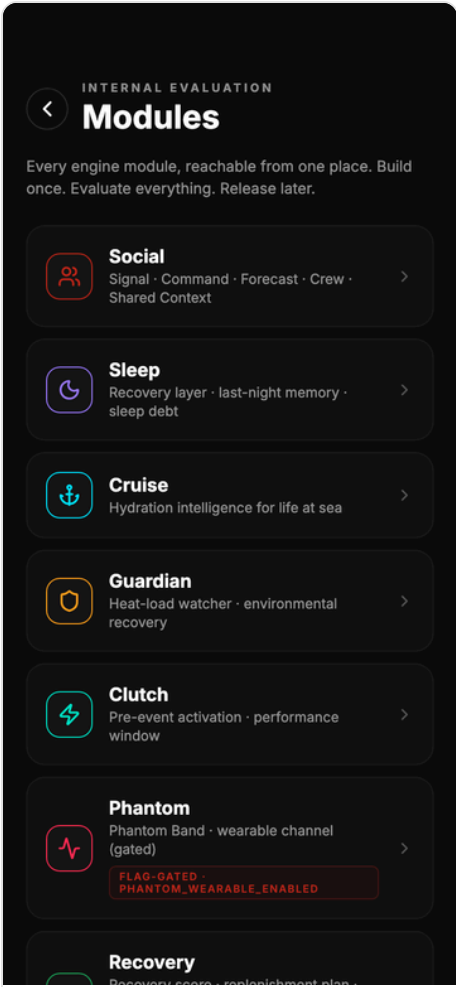

Some features require a paid subscription or one-time purchase. Pricing, taxes, and shipping are confirmed in-app at checkout. Subscriptions renew automatically until cancelled. You can manage or cancel at any time from your platform's subscription settings.

Acceptable use

Don't reverse engineer the app, abuse APIs, scrape data, or use AForce OS to harass other members. We may suspend or terminate accounts that violate these Terms.

THIS WEEK'S REVIEW

What improved

🕒 Collecting...

Keep logging — your wins show up here next week.

What needs

🕒 Collecting...

attention

Log this week so we can spot what to adjust.

Performance Age movement

Collecting...

Movement needs about a week of daily readings.

Beta

Performance Age reflects recent performance behaviors and trends. It is not a medical measurement or biological age assessment.

Recovery trend

Collecting...

Recovery trend needs about a week of daily readings.

Habit Velocity

Collecting...

Log a few days to start your velocity trend.

Top command this week

Awaiting data

Your most-used command appears once command tracking is on.

Next week focus

Start with water. Log once a day — every day counts on its own.

Elite Voice Coach (E4) — same command, coach delivery
